INTRODUCTION and GENERAL INDEX

HILL DIRECTORY COMPANY, publishers of Southeastern Directories (publishers of the Clinton Directory since 1960), present to subscribers and the general public, this, the 1964 edition of the Clinton City Directory, which also includes the Rural Route Residents.

Confidence in the growth of Clinton's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Clinton to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Clinton Directory will fulfill its mission as a source of authentic information pertaining to the community.

Four Major Departments

The four major departments are arranged in the following order:—

I. THE BUYERS' GUIDE constitutes the first major department of the Directory, printed on yellow paper. In the first section of this department, grouped under appropriate headings, are included the advertisements and business cards of firms and individuals desiring to make a complete presentation of their products or services. Following this is the Classified Business section, which embraces a list of the names and addresses of all business and professional concerns of the community, arranged in alphabetical order under appropriate headings—a catalog of all the activities of the community. The Buyers' Guide represents reference advertising at its best, and merits the attention of all buyers and sellers seeking sources of supply or markets for goods. In a busy and diversified community like Clinton, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns, is the second major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Clinton, and the name, official personnel, nature and address of each firm and corporation in the community.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE is the third major department, printed on green paper. In this section the numbered streets are arranged in numerical order, followed by

the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the listing of telephone numbers.

IV. THE NUMERICAL TELEPHONE DIRECTORY is the fourth major department, printed on blue paper.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Clinton and vicinity.

The Clinton Out-of-Town City Directory Library

Through the courtesy of the publishers of the Clinton City Directory, a Directory Library is maintained in the offices of the Clinton Chamber of Commerce, for free reference by the general public. This is one of the more than 1,000 Directory Libraries installed in cities and towns throughout the U. S., Canada and Puerto Rico by members of the Association of North American Directory Publishers.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

Clinton, North Carolina

Clinton is a city of an estimated nine thousand population, located in Sampson County, in the eastern part of North Carolina. Clinton is the trading center for a wide agricultural area, having also, industrial plants, which give employment to hundreds of workers in the manufacturing of radio electronic parts, furniture, tobacco oil curers, home heating units, electrical appliances, lumber, fertilizer, children's clothing, pleasure boats, and ice cream. A meat packing plant established in 1950 now processes 4,500 hogs or more each week. Farmers in the area are paid close to eight million dollars yearly for hogs slaughtered by this firm. This firm employs two hundred people on a full-time basis. A modern poultry processing plant furnishes employment to many people.

Clinton is proud of its auction produce market with office buildings, grading sheds, storage rooms, cotton platforms, and poultry and egg market, covering a ten-acre plot, which is owned by the city. Its livestock and vegetable markets are among the largest in the state.

A tobacco market was established in 1945. The market sold 16,896,905 pounds at a price of \$10,115,437.79 in 1962.

Typical Tobacco Auction

One of the oldest cotton markets in the state is located in Clinton. Average for the year was \$59.87.

Our shopping facilities in Clinton are excellent. The stores and shops in the city are modern, attractive, offering brand named, quality merchandise. The city maintains 3 large free parking lots for people to "Park and Shop in Clinton."

Two outstanding financial institutions serve the city and county: The First Citizens Bank & Trust Company and The First Union Bank. The First Citizens Bank has two branch offices within the city limits. The Clinton Savings & Loan Association has assets of approximately \$7,000,000.00.

The Rufus King Hotel and two motels offer quality accommodations.

Radio Station WRRZ (1,000 watts), is affiliated with The American Broadcasting Company.

Telephone service is provided by The Carolina Telephone & Telegraph Company with over 3,781 telephones in use in Clinton.

There are four arrivals of mail and four dispatches of mail daily. Adequate mail service is provided. Postal receipts as of June 1963 totaled \$128,055.64.

Clinton has the City Management form of government. There are four commissioners and a mayor. Under this system the mayor is the Chief Executive Officer of the town and the City Manager is the Chief Administrative Officer and is responsible directly to the Board.

Sampson County Court House

The police department is under the direct control of the mayor and the Board of Commissioners.

The Sampson County Board of Health is composed of the Chairman of the County Board of Commissioners, the Mayor of Clinton, the Superintendent of Sampson County Schools, a medical doctor, a dentist, a druggist, a layman at large. The Secretary of the Board is the County Health Officer. The Health Department consists of two Sanitary Inspectors, three Clerical and Statistical Workers and five nurses. Their responsibilities include general superficial health check and immunization of all school children in Sampson County. The Board of Health is housed in a new Health Center on the grounds of Sampson County Memorial Hospital.

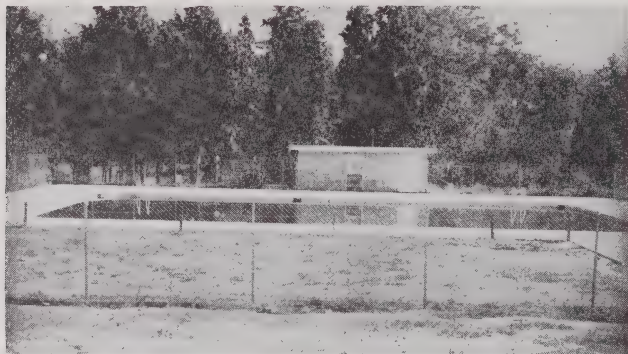

Sampson County Memorial Hospital built at a cost of $1\frac{1}{2}$ million, typifies the city's provision for modern, convenient living. It is fully approved by the Joint Commission on Hospital Accreditation.

The Sampson County Memorial Hospital is a modern 150-bed hospital, constructed in 1950. Since that time a new wing for x-ray and radiology has been constructed. The hospital is fully-accredited and offers the services of all specialists. The hospital has served one of the greatest needs of the county and its operation has been phenomenally successful.

The Library has over 28,004 volumes. A central library, two branches and a bookmobile serve the city and rural areas adequately.

Clinton's educational facilities rank favorably with any in the state. We have five schools within the city, two high schools, three elementary schools, with a total enrollment of 3,400 pupils. Current average daily attendance is 3,200. Clinton has two excellent kindergartens. In nearby Salem-burg in Sampson County, are located Edwards Military Institute and Pineland College.

City Swimming Pool

Clinton has a year-round supervised recreation program. A public park is the site of Little League Football and Baseball competition. The Clinton Recreation Commission is supported by public subscription and is responsible for the recreational program. The Citizen's Athletic Council is the organization which works with the schools in building a superior high school athletic program. This program has produced teams in football, baseball and basketball who have gone far in state finals. Many college scholarships have been awarded to outstanding players on these Clinton teams.

Clinton has two theatres, a swimming pool, a country club, a beautiful rolling golf course and a Teen-Age Building for its youth.

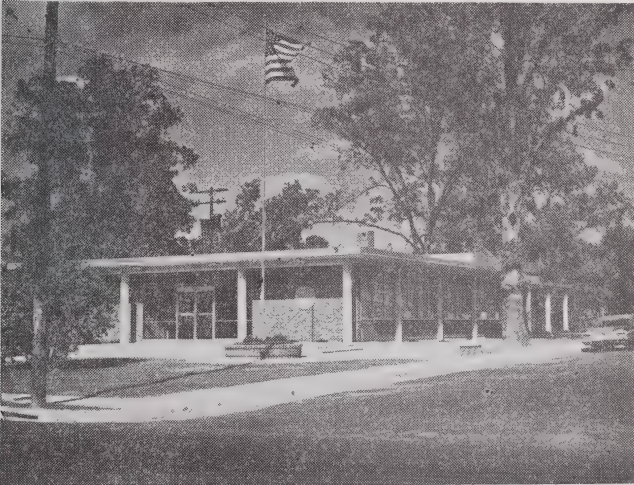

Teen Age Building built by contributions of \$30,000.00 by local citizens through the Clinton Improvement Society.

There are the Chamber of Commerce, Junior Chamber of Commerce, Rotary, Lions, Kiwanis and Exchange clubs; Junior and Senior Woman's Clubs, Study Club, Five Garden Clubs, Business and Professional Woman's Club, Masonic groups, and other social and cultural organizations.

The Fire Department of the City is a volunteer department. Equipment is modern and fire loss has been negligible in the past.

Many municipal additions and improvements are being made in Clinton. A new City Hall built in 1960 at a cost of \$117,000 is now occupied by city officials. Many miles of streets have been paved recently and many narrow streets are being widened.

Clinton's new Municipal Building, a tangible evidence of progressive, forward-looking leadership. It is among North Carolina's finest buildings of its kind. Built in 1960 at a cost of \$117,000.

Clinton is noted for its active religious life. Among the denominations represented in our city, one will be welcomed by members of the congregations of Southern Baptist, Methodist, Presbyterian, Episcopal, Catholic, Universalist, Pentecostal Holiness, Church of God, Free Will Baptist, Free Will Holiness, Church of Latter Day Saints and Jehovah's Witnesses.

Clinton, although commonly known as an agricultural community, is now a growing industrial city. In 1958 the city won outstanding recognition and a bronze plaque for outstanding progress in industry. We have four new industries to add to our present manufacturing.

To visit Clinton, North Carolina brings the desire to live in Clinton. To live in Clinton is to love it. To catch the "Spirit of Clinton" which is predominant, brings the progress which we enjoy—"The most Progressive Town in Eastern Carolina."

SAMPSON COUNTY

Sampson County, named in honor of Colonel John Sampson, was formed in 1784. The first settlers, predominantly Scotch and Irish, began to arrive in the area now known as Sampson County about the middle of the eighteenth century.

The present population consists mainly of descendants of the pioneers and of those who came later. The proportion of Negroes is quite large, and small colonies of Indians live on South River and in Herring Township.

Sampson County is in the southeastern part of North Carolina. The topography is gently rolling, although many flat areas occur. The elevation above sea level ranges from about 65 feet to 200 feet. The mean annual temperature is 61.7 degrees, and the annual growing season is 222 days, average yearly rainfall is 47.15 inches.

Clinton, the county seat, is the oldest town. It was incorporated in 1852. Other towns in the order of their incorporation are: Roseboro, Autryville, Salemburg, Garland, Turkey, Parkersburg, Newton Grove and Harrells.

Sampson County's most noted sons were William Rufus King, elected Vice-President of the United States in 1852, and Gabriel Holmes, governor of North Carolina from 1821 to 1824. A monument to Rufus King stands on the courthouse square. Historical markers on U. S. Highway 701, point to the birthplaces of Vice-President Rufus King and Governor Gabriel Holmes.

Sampson County is the largest county in the state and was created in 1784 by Act of Assembly dividing Duplin County. Divisions of New Hanover in 1795, 1847, 1870 and 1872, annexing various parts of the county to Sampson, account in part for its present size.

Sampson is served by two branches of the Atlantic Coast Line Railroad. Three major bus lines provide highway transportation to all portions of the county. The Carolina Power and Light Company provides electricity for its own distribution line. The Carolina Telephone & Telegraph Company has exchanges at Clinton, Roseboro, Garland and Newton Grove. The Star Telephone Membership Corporation has automatic dial exchanges in four rural communities.

The Clinton Airport is operated by R. A. Naylor, owner of the Clinton Flying Service. Planes are available for charter trips, or for instruction.

Sampson's farm income is around forty-two and a half million dollars annually, ranking it fourth in the state. Although farming predominated for years, the past two decades have witnessed the development of Sampson County into an industrial area. The development of the Clinton Tobacco Market, together with the yearly growth of the produce market, has stamped it as the potential industrial center of Eastern North Carolina.

Concerted efforts have resulted in forty industries locating in Clinton, Salemburg, Roseboro, Newton Grove and Garland. The largest acquisition is Clinton Industries, Inc., a branch of Scovill Manufacturing Company of Waterbury, Connecticut. The industrial community is widely diversified as to products.

A new county hospital was built in 1950 and since then there have been two additions. Clinton built a new city hall in 1960, and made other improvements. A year 'round recreation program was installed.

CAUTION

Pay no money in advance to itinerant Directory canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with
the latest edition of the City Directory?

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

HILL'S CLINTON

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1964

Copyright, 1964, by Hill Directory Company

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publishers cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names.

Figures in parenthesis denote old numbers.

The word street is not used in addresses. Where a designation av, cir, ter, etc., does not appear, the designation st is understood.

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.)

(This section includes some listings reading "No Return." In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.)

CAUTION

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

CASHIERS! TELLERS! CLERKS!

*Do your employers furnish you with the
latest edition of the City Directory?*

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

Don't Use An Old Directory!

•

One Address taken from an old Directory may send you miles out of the way and waste a whole day's time. You take pride in keeping a fresh stock of merchandise on your shelves—

•

Why not avail yourself of fresh information for your daily use?

**Don't Contribute to
Counterfeiters
KNOW YOUR MONEY!**

**Don't Be Fooled by
Forgers
KNOW YOUR ENDORSERS!**

The Government never redeems counterfeit money!

1. **KNOW YOUR MONEY!** Study the bills you receive so as to become familiar with the workmanship on them, especially in the portraits.

2. **COMPARE** a suspected bill with a genuine of the same type and denomination. Observe these things:

PORTRAIT *Counterfeit*—Dull, smudgy, or unnaturally white, scratchy; oval background is dark, lines irregular and broken. Portrait merges into the background.

Genuine—Stands out distinctly from the oval background. Eyes appear lifelike. Background is a fine screen of regular lines.

COLORED SEAL *Counterfeit*—Saw-tooth points around rim are usually uneven, broken off.

Genuine—Saw-tooth points around rim are even and sharp.

SERIAL NUMBERS *Counterfeit*—Poorly printed, badly spaced, uneven in appearance.

Genuine—Figures firmly and evenly printed, well spaced.

PAPER *Counterfeit*—Generally has no silk threads, but these may be imitated by very small red and blue ink lines.

Genuine—Printed on distinctive paper in which very small red and blue silk threads are scattered. The silk threads are not always noticeable on bills that are badly soiled or worn.

3. **RUBBING** a bill on a piece of paper will *not* prove it is genuine or counterfeit; ink can be rubbed from good bills as well as bad ones.

4. **CONSULT** an experienced money-handler or police officer to make sure, if you are still in doubt, whether a bill is genuine or counterfeit.

5. **REMEMBER, NOT ALL STRANGERS ARE COUNTERFEITERS, BUT ALL COUNTERFEITERS ARE LIKELY TO BE STRANGERS.**

This information is reprinted from the U. S. Secret Service 32-page booklet, "KNOW YOUR MONEY", which tells how to detect counterfeit coins and bills and how to guard against losses from forged Government checks. Copies may be purchased for 10c each, or \$7.50 per 100, from the Superintendent of Documents, Government Printing Office, Washington, D. C.

A STATEMENT OF ADVERTISING PRINCIPLES

1. Good Advertising

aims to inform the consumer and help him to buy more intelligently.

2. Good Advertising

tells the truth, avoiding misstatement of facts as well as possible deception through implication or omission. It makes no claims which cannot be met in full and without further qualification. It uses only testimonials of competent witnesses.

3. Good Advertising

conforms to the generally accepted standards of good taste. It seeks public acceptance on the basis of the merits of the product or service advertised rather than by the disparagement of competing goods. It tries to avoid practices that are offensive or annoying.

4. Good Advertising

recognizes both its economic responsibility to help reduce distribution costs and its social responsibility in serving the public interest.
